**DETAILED ACTION**

***Response to Arguments***

1. Applicant's arguments, see page 3, line 29 to page 4, line 16 of the remarks filed 8/22/2005, with respect to claims 1,15,24,29,31 and their respective dependents have been fully considered and are persuasive. The rejection of claims 1,3-32 and 34-40 has been withdrawn.

***Allowable Subject Matter***

2. Claims 1,3-32 and 34-40 are allowed.
3. The following is the Examiner's statement of reasons for allowance:

With regard to independent claim 1, the prior art of record fails to disclose or suggest a method as claimed, and as enabled by the specification, comprising: configuring a content addressable memory to indicate distribution of received packets *based on a load balancing technique* to a plurality of cache systems that each spoof a destination indicated by the received packets, receiving a packet and inputting it into the CAM, and obtaining a result from the CAM *to indicate whether to redirect the received packet* to a selected cache system and to indicate which cache system if redirection is indicated, redirecting the received packet to the selected cache system, and sending the received packet to a destination indicated by the packet when the CAM does not indicate to redirect the received packet.

Independent claims 15,24,29 and 31 contain substantially identical recitations to claim 1, and are allowed for the same reasons.

Any comments considered necessary by Applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
